

The Devil And Me (bennett/young)

The devil and me we're the best of friends
The devil and me we just can't pretend
When all your blood is set to burst
The devil in me will set me free i can't be free he can't be me

Your makeup on you sprout your horns
Alive again since who knows when
All of the pain is in your head
The voodoo doll is painted red you twist the head hear what it said

The devil and me we're the best of friends
The devil and me we just can't pretend
When all your blood is set to burst
The devil in me will set me free I can't be free he can't be me

You thought tonight that we'd be gone
Las Vegas bound booze on the lawn
This engine's hot or can't you see
We're on the run we're having fun we've come undone here comes the sun

The devil and me we're the best of friends
The devil and me we just can't pretend
When all your blood is set to burst
The devil in me will set me free I can't be free he can't be me

Feel the devil chasin' me
Just because I have to be
He's now a part of me
My soul too trapped and weak left to defend

The devil won't let me be
Too deep inside of me
Old rocking chair is all i see
He forces me to do it

The devil and me we're the best of friends
The devil and me we just can't pretend
When all your blood is set to burst
The devil in me will set me free I can't be free he can't be me
